17+ YEARS OF EXPERIENCE

PROFESSIONAL SUMMARY

Senior Technical Manager and Solution Architect with **17+ years of IT expertise** and vast experience building mission-critical **enterprise products** and delivering **end-to-end solutions**—from cloud and on-premise **infrastructure** and full-stack **coding** to enterprise **database architecture**—involving numerous **large-scale database migrations** for global banking clients. Currently at **Standard Chartered Bank** (associated since May 2017), driving cloud-native transformation across AWS Cloud, microservices, and enterprise databases. Proven hands-on capability across infrastructure (AWS, Kubernetes, Docker/Podman), coding (Python-FastAPI, Java-Spring Boot, PL/SQL, Next.js), database engineering and migrations (Oracle, PostgreSQL, Aurora, DB2, ora2pg, GoldenGate, SharePlex), DevOps, and AI/LLM integration.

WORK EXPERIENCE

Senior Technical Manager

Jun 2021 – Present

Standard Chartered Bank

RCMS — Receivables & Collections Management System | Global Banking Platform

- Lead end-to-end technical management and solution architecture for RCMS — SCB's core global collections and receivables enterprise banking platform.
- Driving large-scale **Oracle → Aurora PostgreSQL migration on AWS**: ora2pg tooling, database schema redesign, performance engineering, and production cutover planning.
- **Designed AWS-native infrastructure**: EKS (Kubernetes), Aurora Postgres, HELM charts, Secrets Management, and full CI/CD automation.
- Implemented real-time **Grafana/Prometheus/InfluxDB monitoring stack** for live infrastructure and database observability.
- Led **250+ Oracle Reports → Jasper Reports migration**; complete migration framework design and execution.
- Hands-on Python (FastAPI) and Java (Spring Boot) microservices and enterprise integration API development.
- Oracle APEX application development and advanced PL/SQL engineering.

Senior Technical Lead / Cloud Architect

May 2017 – Jun 2021

Capgemini

Client: Standard Chartered Bank | RCMS Platform

- Led 12-month **AIX → RHEL Linux platform and database migration** for 15-year-old live banking system — zero critical production incidents.
- **Indonesia In-Country Data & Database Migration** (regulatory mandate): infra procurement, database architecture, system design, and full deployment.
- Drove **AWS Cloud & Database Migration POC**: Kubernetes, HELM, Aurora Postgres, Secrets Management, DevOps pipelines.
- Managed Oracle OLTP/batch databases, Control-M scheduling, SharePlex replication, and Rundeck automation.

ACHIEVEMENTS

- 🏆 **Oracle APEX Competition 2009** — 8th place (International)
- 🏅 **Best Individual Performance Award ×2** — Infosys / RBS
- 🚀 **Enterprise DB Migrations** — Led heterogeneous Oracle → Aurora PostgreSQL & cross-country data migrations
- ⚡ **Batch job optimization**: 7+ hrs → <10 min
- ✈️ **AIX → Linux migration** (12 months, zero critical issues)

EDUCATION

B.E. — Computer Science & Engineering

Anna University Affiliated College, Chennai

2004 – 2008

KEY MIGRATIONS LED

Oracle → AWS Aurora PostgreSQL
End-to-end schema redesign, ora2pg conversion & production cutover

Indonesia In-Country Data Migration
Regulatory banking data & DB migration with full infra setup

AIX → RHEL Linux DB & Platform
12-month live banking migration with zero critical incidents

250+ Oracle → Jasper Reports
Custom migration framework & full enterprise rollout
